National Conference on

Challenges and Opportunities of
Radiopharmaceuticals in Healthcare

7th September 2019

Sponsored by:

**Atomic Energy Regulatory Board
(AERB), Mumbai
(Government of India)**

Organized by:

**Department of Pharmacy
S.N. Medical College, Agra**

About SN Medical College Agra

S.N. Medical College & Hospital, Agra named after the first lady Governess of Uttar Pradesh, Bharat Kokila Dr. Sarojni Naidu. It is situated in the heart of agra, Historical city famous for Taj Mahal. The S.N. Medical College is one of the first three Medical College of the Country. It was started in 1854 in the form of a medical school for training doctors for Indian Army.

The history of this institute in fact runs parallel with the evolution and development of Medical Education in the State of Uttar Pradesh. Lt. Governor Sir James Thomson was the founder of this school.

About Agra (The City of Taj)

Agra is a city in northern India's Uttar Pradesh state. Its home to the iconic Taj Mahal, a mausoleum built for the Mughal ruler Shah Jahan's wife, Mumtaz Mahal (who died in childbirth in 1631). The imposing main building features a massive dome and intricately carved white marble inlaid with precious stones. This is set behind a reflecting pool inside a courtyard defined by 4 minarets.

About The Department of Pharmacy

Pharmacy department was established in the year 1973 for two year diploma course is running in separate block near central library. The students admitted through state level pharmacy entrance exam conducted by U.P. state medical faculty Lucknow. This department is duly approved by Pharmacy Council of India (PCI).

About the conference

The aim of this conference is to boost the awareness amongst the professionals towards the contemporary challenges and future opportunities in radio pharmaceuticals and

healthcare. The radio pharmaceuticals have unique role to play in the diagnosis of incurable diseases and their modern therapy. In the current scenario, the market of drugs has prominent demand for the use of novel radiopharmaceuticals in numerous critical illnesses. The thrust on radio pharmaceuticals need to be address in the way of creating a common platform for discussion and future plan of action amongst health professionals. This conference would provide excellent future ideas to the budding scientist and young healthcare professionals working in the field of radio pharmaceuticals.
