

SAROJINI NAIDU MEDICAL COLLEGE, AGRA

COMPETENCY BASED MEDICAL EDUCATION TIME TABLE FOR THIRD PROFESSIONAL PART-1 MBBS COURSE (BATCH-2022)

		Anesthesia					
		radiotherapy & radiodiagnosis					
		Psychiatry					
		Respiratory medicine					
		SURGERY					
		MEDICINE					
		OBGY					
		PAEDIATRICS					
		ENT					
		OPHTHALMOLOGY					
		DERMA					
		ORTHOPEDICS					
DATE	DAYS	8-9 am	9-12 pm	12-1 pm	1-2 pm	2-4 pm	4-5 pm
07-03-25	FRIDAY	PE 3.1 , PE 3.2- Developmental Delay				SU18.3 SDLDescribe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan.	
08-03-25	SATURDAY	LEC 1 -Assessment of hearing and rehabilitation deaf child	AETCOM	RD1.1 Define radiation and the interaction of radiation and importance of radiation protection			
09-03-25	SUNDAY						
10-03-25	MONDAY	SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver		Lec -OG9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management . Obj9.3.1 Enlist differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) Obj9.3.2 Discuss the aetiology and clinical features of ectopic pregnancy Obj9.3.3 Enumerate the principles of medical and surgical management.		SDL-1 - IDENTIFICATION, RESUSCITATION AND MANAGEMENT OF ENT EMERGENCIES (FOREIGN BODY IN EAR NOSE THROAT, TRACHEOSTOMY, NASAL PACKING)	
11-03-25	TUESDAY	IM5.3 describe and discuss the pathology change in various form of liver disease				"Sdl -OG14.1: Enumerate and discuss the diameters of maternal pelvis and types Obj14.1.1- Describe the various diameters of maternal pelvis and their significance Obj14.1.1- Pictorial depiction of different types of pelvis"	
12-03-25	WEDNESDAY	Lec -OG9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management . Obj9.3.1 Enlist differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) Obj9.3.2 Discuss the aetiology and clinical features of ectopic pregnancy Obj9.3.3 Enumerate the principles of medical and surgical management.				IM 5.13 Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver disease	
13-03-25	THURSDAY						
14-03-25	FRIDAY	PE 21.3 - Nephrotic Syndrome					
15-03-25	SATURDAY	LECTURE-Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fracture,	SKILL LAB	AS3.1 Describe the principles of preoperative evaluation		DR10.8-SGD- Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the non-syphilitic sexually transmitted diseases (chancroid, donovanosis and LGV)	
16-03-25	SUNDAY	Sunday					

17-03-25	MONDAY	SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymphedema, lymphangitis and Lymphomas		Lec OG9.4 Discuss the clinical features , laboratory investigations , ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms Obj9.4.1 Discuss the clinical features, laboratory investigations and ultrasonography in GTT. Obj9.4.2 Enumerate differential diagnosis Obj9.4.3 Describe principles of management and follow up of gestational trophoblastic neoplasms			
18-03-25	TUESDAY	IM5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease				"sgt OG1.1 Define and discuss birth rate, maternal mortality and morbidity OG1.2 Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit OG1.3 Define and discuss still births and abortions Obj1.1.1- Discuss definition of birth rate , maternal mortality and morbidity Obj1.1.2- Discuss definition of perinatal and neonatal morbidity and mortality Obj1.1.3- Define and discuss still birth and abortion "	
19-03-25	WEDNESDAY	Lec OG9.4 Discuss the clinical features , laboratory investigations , ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms Obj9.4.1 Discuss the clinical features, laboratory investigations and ultrasonography in GTT. Obj9.4.2 Enumerate differential diagnosis Obj9.4.3 Describe principles of management and follow up of gestational trophoblastic neoplasms				IM 5.14 Outline a diagnostic approach to liver disease based on hyper bilirubinaemia ,liver function changes and hepatitis serology	
20-03-25	THURSDAY			IM5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension			
21-03-25	FRIDAY	PE 23.5- Acute Rheumatic Fever				SU28.14 SGD Describe the clinical features, investigations and principles of management of disorders of large intestine.	
22-03-25	SATURDAY	Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of Fracture both bones leg	AETCOM	CT1.1 Describe and discuss the epidemiology of tuberculosis and its			
23-03-25	SUNDAY	Sunday					
24-03-25	MONDAY	SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias		Lec OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features , ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy Obj10.1.1 Define, classify and describe the aetiology, pathogenesis of APH Obj10.1.2 Discuss clinical features , ultrasonography, differential with respect to diagnosis of APH. Obj10.1.3 Discuss the management of antepartum haemorrhage in pregnancy			

25-03-25	TUESDAY	IM 5.7 Enumerate and describe the causes and pathophysiology of drug induced liver injury				sgt OG2.1 Describe and discuss the development and anatomy of the female reproductive tract , relationship to other pelvic organs, applied anatomy as related to obstetrics and gynaecology Obj2.1.1- Describe the development of female reproductive tract Obj2.1.2-Discuss the developmental abnormalities and their applied anatomy Obj2.1.3- Describe the anatomy of internal genital organs and its relationship with other pelvic organs Obj2.1.4-Discuss the applied anatomy of pelvic structures related to obstetrics and gynaecology.	
26-03-25	WEDNESDAY	Lec OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features , ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy Obj10.1.1 Define, classify and describe the aetiology, pathogenesis of APH Obj10.1.2 Discuss clinical features , ultrasonography, differential with respect to diagnosis of APH. Obj10.1.3 Discuss the management of antepartum haemorrhage in pregnancy				IM5.16 Describe and discuss the management of hepatitis, cirrhosis, portal hypertension, ascites spontaneous, bacterial peritonitis and hepatic encephalopathy	
27-03-25	THURSDAY	DR1.1 Enumerate the causative and risk factors of acne		IM 6.13 Describe and enumerate the indications and side effects of drugs for bacterial, viral and other types of diarrhea			
28-03-25	FRIDAY	PE 29.6- ITP		Etiopathogenesis, clinical features and management of Retinal vein and arterial occlusions.			
29-03-25	SATURDAY		SKILL LAB				
30-03-25	SUNDAY	Sunday					
31-03-25	MONDAY	AN10.4 Describe the anatomical groups of axillary lymph nodes and specify their areas of drainage		Lec OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features , ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy Obj10.1.1 Define, classify and describe the aetiology, pathogenesis of APH Obj10.1.2 Discuss clinical features , ultrasonography, differential with respect to diagnosis of APH. Obj10.1.3 Discuss the management of antepartum haemorrhage in pregnancy			
01-04-25	TUESDAY						
02-04-25	WEDNESDAY	Lec OG11.1 Describe the aetiopathology, clinical features , diagnosis and investigations, complications , principles of management of multiple pregnancies Obj11.1.1 Describe the aetiopathology and clinical features of multiple pregnancy Obj11.1.2 Discuss the diagnosis and investigations. Obj11.1.3 Discuss complications , principles of management of multiple pregnancies		PS1.2 Describe the components of communication		IM 10.14 generate a differential diagnosis and prioritise based on clinical features that suggest a specific etiology	
03-04-25	THURSDAY	DR1.3 Describe the treatment and preventive measures for various kinds of acne		IM 6.16 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions			
04-04-25	FRIDAY			Classification, clinical features and management of Diabetic Retinopathy. Hypertensive Retinopathy			
05-04-25	SATURDAY	LEC 2 -Approach to a case of otalgia, different causes and management	AETCOM				
06-04-25	SUNDAY	Sunday					

07-04-25	MONDAY	AN20.4 Explain anatomical basis of enlarged inguinal lymph nodes		Lec OG12.1 Define , classify and describe the aetiology, pathophysiology, early detection, investigations, principles of management of hypertensive disorders of pregnancy and eclampsia , complications of eclampsia Obj12.1.1 Define , classify and describe the aetiology, pathophysiology of hypertensive disorders during pregnancy. Obj12.1.2 Discuss early detection and investigations of hypertensive disorders during pregnancy. Obj12.1.3 Discuss principles of management of hypertensive disorders of pregnancy and eclampsia , complications of eclampsia		SGL-Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of Fracture both bones leg , and ankle fracture	
08-04-25	TUESDAY	IM 6.17 Discuss and describe the principles and regimens used in post exposure prophylaxis.		SU28.14 Describe the clinical features, investigations and principles of management of disorders of small intestine.		"sdl OG14.1: Identify and discuss and defend medico-legal, socioeconomic and ethical issues as it pertains to abortion / medical termination of pregnancy and reproductive rights"	
09-04-25	WEDNESDAY	Lec OG12.1 Define , classify and describe the aetiology, pathophysiology, early detection, investigations, principles of management of hypertensive disorders of pregnancy and eclampsia , complications of eclampsia Obj12.1.1 Define , classify and describe the aetiology, pathophysiology of hypertensive disorders during pregnancy. Obj12.1.2 Discuss early detection and investigations of hypertensive disorders during pregnancy. Obj12.1.3 Discuss principles of management of hypertensive disorders of pregnancy and eclampsia , complications of eclampsia		PS2.1 Define stress and describe its components and causes		IM 5.18 Enumerate the indications for hepatic transplantation	
10-04-25	THURSDAY	HOLIDAY					
11-04-25	FRIDAY	PE 24.1- PE 24.5: Diarrhoeal diseases in children		Retinal Detachment - types and management			
12-04-25	SATURDAY	LEC 3 -Approach to a case of nasal mass, different causes and management	SKILL LAB	RD1.2 Describe the evolution of Radiodiagnosis. Identify various radiological equipments In the current era			
13-04-25	SUNDAY	Sunday					
14-04-25	MONDAY	Holiday					
15-04-25	TUESDAY	IM 4.1 Describe and discuss the febrile response and the influence of host immune status, risk factors and comorbidities on the febrile response		AN12.8 Describe anatomical basis of Claw hand		Sgt OG18.1- Describe and discuss the assessment of maturity of the new born, diagnosis of birth asphyxia, principles of resuscitation, common problems. Obj18.1.1- Describe and discuss the assessment of maturity of the newborn OG18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment Obj18.2.1-Describe the principles of resuscitation of the newborn	
16-04-25	WEDNESDAY	Lec OG12.1 Define , classify and describe the aetiology, pathophysiology, early detection, investigations, principles of management of hypertensive disorders of pregnancy and eclampsia , complications of eclampsia Obj12.1.1 Define , classify and describe the aetiology, pathophysiology of hypertensive disorders during pregnancy. Obj12.1.2 Discuss early detection and investigations of hypertensive disorders during pregnancy. Obj12.1.3 Discuss principles of management of hypertensive disorders of pregnancy and eclampsia , complications of eclampsia		PS2.2 Describe the role of time management, study skills, balanced diet and sleep wake habits in stress avoidance		IM 6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC	

17-04-25	THURSDAY			IM 4.2 Describe and discuss the influence of special populations on the febrile response including: the elderly, immune suppression, malignancy and neutropenia, HIV and travel			
18-04-25	FRIDAY	DR2.2 Describe the treatment of vitiligo Holiday					
19-04-25	SATURDAY	LACTURE-Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of fractures of : (a) Calcaneus (b) Small bones of foot	AETCOM	AS5.6 Observe and describe the principles and steps/ techniques involved in common blocks used in Surgery(including brachial plexus blocks)		DR10.9 Describe the syndromic approach to ulcerative sexually transmitted disease	
20-04-25	SUNDAY	Sunday					
21-04-25	MONDAY	SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications		Lec OG12.2 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of anaemia in pregnancy Obj12.2.1 Define , classify and describe the aetiology, pathophysiology of anaemia in pregnancy. Obj12.2.2 Discuss diagnosis, investigations, adverse effects on the mother and foetus Obj12.2.3 Discuss management and complications of anaemia in pregnancy and labor.			
22-04-25	TUESDAY	IM 4.7 Discuss and describe the pathophysiology and manifestations of sepsis syndrome				sgt OG3.1 Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis Obj3.1.1-Discuss the physiology of ovulation Obj3.1.2-Discuss the physiology of menstruation Obj3.1.3-Describe gametogenesis Obj3.1.4- Describe the fertilization and implantation	
23-04-25	WEDNESDAY	Lec OG12.2 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of anaemia in pregnancy Obj12.2.1 Define , classify and describe the aetiology, pathophysiology of anaemia in pregnancy. Obj12.2.2 Discuss diagnosis, investigations, adverse effects on the mother and foetus Obj12.2.3 Discuss management and complications of anaemia in pregnancy and labor.		PS2.3 Define and describe the principles and components of learning memory and emotions		IM 6. 10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs.	
24-04-25	THURSDAY	R3.3 Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy		IM 4.22 Describe and discuss the pharmacology, indications, adverse reactions, interactions of antimalarial drugs and basis of resistance			
25-04-25	FRIDAY	PE 24.6 - PE 24.8 : Persistent and chronic diarrhoea and dysentery		Glaucoma: Definition, classification and clinical features.		SU28.6 SGD Describe the clinical features, investigations and principles of management of benign disorders of esophagus	
26-04-25	SATURDAY	LECTURE-Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis including cold abscess and caries spine.	SKILL LAB	CT1.2 Describe and discuss the microbiology of tubercle bacillus, mode of		PS1.1 SDL Establish rapport and empathy with patients	
27-04-25	SUNDAY	Sunday					
28-04-25	MONDAY	AN11.3 Describe the anatomical basis of Venepuncture of cubital veins		pulmonary and extra pulmonary forms (including lymph node, bone			

29-04-25	TUESDAY	IM 1.6 Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations		and CNS)		sgt OG4.1 Describe and discuss the basic embryology of foetus, factors influencing foetal growth and development, anatomy and physiology of placenta and teratogenesis Obj4.1.1- Describe the basic embryology of fetus Obj4.1.2- Discuss the factors influencing fetal growth and development obj4.1.1- Describe the development of placenta obj4.1.2- Discuss placental Circulation obj4.1.3-Discuss the the functions of placenta obj4.1.4-Describe the abnormalities of placenta	
30-04-25	WEDNESDAY	Lec OG12.4 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of heart disease in pregnancy Obj12.4.1 Define , classify and describe the aetiology and pathophysiology of heart diseases in pregnancy. Obj12.4.2 Discuss the diagnosis, investigations, criteria, adverse effects on the mother and foetus. Obj12.4.3 Describe the management during pregnancy and labour, and complications of heart disease in pregnancy		PS2.4 Describe the principles of personality development and motivation		IM 6. 12 Enumerate the indications for and interpret the results of: pulse oximetry , ABG , Chest Radiograph	
01-05-25	THURSDAY	DR4.2 Enumerate and describe the treatment modalities for lichen planus		IM 1.6 Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations			
02-05-25	FRIDAY	PE 20.19 : Neonatal Hyperbilirubinemia		Glaucoma: investigations and management.		SU28.12 SGD Describe the clinical features, investigations and principles of management of Liver Trauma	
03-05-25	SATURDAY	LEC 4 -Approach to a patient with t stridor , different causes and management	AETCOM				
04-05-25	SUNDAY	Sunday					
05-05-25	MONDAY	SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases		Lec OG12.8 Describe the mechanism , prophylaxis, foetal complications, diagnosis and management of isoimmunization in pregnancy Obj12.8.1 Describe the mechanism of isoimmunisation and prophylaxis against Rh isoimmunisation. Obj12.8.2 Discuss foetal complications and diagnosis of isoimmunization in pregnancy Obj12.8.3 Discuss management of isoimmunization in pregnancy		SGL- Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis including cold abscess and caries spine and fracture of (a) Calcaneus (b) Small bones of foot.	
06-05-25	TUESDAY	IM 1.8. Describe and discuss the pathogenesis and development of common arrhythmias involved in heart failure particularly atrial fibrillation		SU28.13 Describe the applied anatomy of small and large intestine		sdl OG14.1: Enumerate and discuss the diameters of maternal pelvis and types Obj14.1.1- Perform clinical pelvimetry	
07-05-25	WEDNESDAY	Lec OG13.2 Define, describe the causes , pathophysiology, diagnosis, investigations and management of postdated pregnancy Obj13.2.4 Define, describe the causes and pathophysiology of post dated pregnancy. Obj13.2.5 Discuss the diagnosis and investigations of post dated pregnancy.		PS2.5 Define and distinguish normality and abnormality			
08-05-25	THURSDAY	DR5.1 Describe the etiology, microbiology, pathogenesis, natural history, clinical features, presentations and complications of scabies in adults and children		IM 1.9 Describe and discuss the clinical presentation and features, diagnosis, recognition and management of acute rheumatic fever			
09-05-25	FRIDAY						
10-05-25	SATURDAY		SKILL LAB	RD1.3 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder of ENT		AS3.2 SDL Elicit, present and document an appropriate history including medication history in a patient undergoing Surgery as it pertains to a preoperative anaesthetic evaluation	
11-05-25	SUNDAY	Sunday					

12-05-25	MONDAY	HOLIDAY					
13-05-25	TUESDAY	IM 1.19. Enumerate the indications for and describe the findings of heart failure with the following conditions including: 2D echocardiography, brain natriuretic peptide, exercise testing, nuclear medicine testing and coronary angiogram		SU29.5 Describe the clinical features, investigations and principles of management of renal calculi		sgt OG5.1 Describe, discuss and identify preexisting medical disorders and discuss their management, discuss evidence based intra partum care OG5.2 Determine maternal high risk factors and verify immunization status Obj 5.1.1- Discuss the importance of pre conception counselling Obj 5.1.2-Identify pre existing medical condition Obj 5.1.3-Discuss the preconception management of medical disorder Obj 5.1.4-Discuss evidence based intrapartum care Obj5.2.1- Enumerate the maternal high risk factors Obj5.2.2- Describe how to screen for maternal high risk cases Obj5.2.3-Discuss the importance of verifying immunization Obj5.2.4- Discuss the use of folic acid in pre conception period	
14-05-25	WEDNESDAY	Lec OG14.2 Define and describe obstructed labour, its clinical features, prevention and management Obj14.2.1 Define and describe obstructed labour. Obj14.2.2 Enumerate clinical features Obj14.2.3 Discuss prevention and management		PS3.1 Describe the growth of psychiatry as a medical specialty, its history and contribution to society		IM 1.1 Describe and discuss the epidemiology, pathogenesis clinical evolution and course of common causes of heart disease including rheumatic/valvular, ischemic, hypertrophic inflammatory	
15-05-25	THURSDAY	DR5.3 Enumerate and describe the pharmacology, administration and adverse reaction of pharmacotherapies for scabies		IM 2.16 Discuss and describe the indications for acute thrombolysis, PTCA and CABG			
16-05-25	FRIDAY	PE 20.12 - PE 20.14 : Neonatal hypothermia, Hypoglycemia and Hypothermia		Episcleritis. Scleritis		SU29.8 SGD Describe the clinical features, investigations and principles of management of bladder cancer	
17-05-25	SATURDAY	LECTURE-Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, compartment syndrome	AETCOM	AS6.3 Describe the common complications encountered by patients in the recovery room, their recognition and principles of management		DR14.3-SDL-Demonstrate dermatographism	
18-05-25	SUNDAY	Sunday					
19-05-25	MONDAY	SU29.6 Describe the clinical features, investigations and principles of management of renal tumours		Lec OG14.3 Describe and discuss rupture uterus, causes, diagnosis and management. Obj14.3.1 Describe and discuss rupture uterus Obj14.3.2 Enumerate causes and diagnosis of ruptured uterus Obj14.3.3 Describe the management		SDL-2 - OBSERVE AND DESCRIBE THE INDICATION FOR AND STEPS INVOLVED IN THE PERFORMANCE OF TUNING FORK TEST	
20-05-25	TUESDAY	IM 2.18 Discuss and describe the indications, formulations, doses, side effects and monitoring for drugs used in the management of dyslipidemia		SU29.7 Describe the principles of management of acute and chronic retention of urine		sgt OG7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy Obj7.1.1- Describe and Discuss the changes in the genital tract during pregnancy Obj7.1.2-Describe and Discuss the changes in cardiovascular system and respiratory system during pregnancy Obj7.1.3- Describe and Discuss the changes in hematology, renal and gastrointestinal system during pregnancy.	
21-05-25	WEDNESDAY	Lec OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labour Obj14.4.1 Describe and discuss the classification of abnormal labour Obj14.4.2 Discuss the diagnosis of abnormal labour Obj14.4.3 Describe the management of abnormal labour		PS3.2 Enumerate, describe and discuss important signs & symptoms of common mental disorders		IM1.26 Develop document and present a management plan for patients with heart failure based on type of failure, underlying aetiology.	
22-05-25	THURSDAY	DR6.1 Describe the etiology pathogenesis and diagnostic features of pediculosis in adults and children		IM2.19 Discuss & describe the pathogenesis, recognition & management of complications of ACS including arrhythmias, shock, LV dysfunction, papillary muscle rupture & pericarditis			
23-05-25	FRIDAY	PE 20.7 - Birth Asphyxia		Ocular Movements Overview to Strabismus and Strabismic Amblyopia. Comitant squint. Incomitant Squint. Paralytic Squint		SU28.14 SGD Describe the clinical features, investigations and principles of management of Intestinal obstruction	

24-05-25	SATURDAY	LECTURE-Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management	SKILL LAB	CT1.3 Discuss and describe the impact of co-infection with HIV and other		PS1.3 SDL Demonstrate breaking of bad news in a simulated environment	
25-05-25	SUNDAY	Sunday					
26-05-25	MONDAY	SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications		tuberculosis			
27-05-25	TUESDAY	IM2.19 Discuss & describe the pathogenesis, recognition & management of complications of ACS including arrhythmias, shock, LV dysfunction, papillary muscle rupture & pericarditis		SU29.9 Describe the clinical features, investigations and principles of management of disorders of prostate		sgt OG8.1 Enumerate , describe and discuss the objectives of antenatal care, assessment of period of gestation, screening of high risk factors Obj8.1.1- Discuss the objectives of antenatal care Obj8.1.2- Describe the assessment of period of gestation Obj8.1.3- Discuss the screening of high risk factors	
28-05-25	WEDNESDAY	Lec OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labour- Cord Prolapse Obj14.4.7 Describe and discuss the classification Obj14.4.8 Discuss the diagnosis Obj14.4.9 Discuss the management of abnormal labour- Cord prolapse		PS3.6 Describe and discuss biological, psychological & social factors & their interactions in the causation of mental disorders		IM 1.29 Elicit document and present an appropriate history, demonstrate correctly general examination, relevant clinical findings and formulate document and present a management plan for an adult patient presenting with a common form of congenital heart disease	
29-05-25	THURSDAY	DR7.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of dermatophytes in adults and children		IM10.25 Identify and describe the priorities in management of ARF including, diet, volume management, alteration in dosage of drugs, monitoring and indications or dialysis			
30-05-25	FRIDAY	PE 20.8 - Respiratory distress in newborn		Anatomy of Optic Nerve and Visual Pathway Abnormalities of Visual Pathway Optic nerve function and Optic Nerve diseases		SU29.10 SDL Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	
31-05-25	SATURDAY		AETCOM				
01-06-25	SUNDAY	Sunday					
02-06-25	MONDAY	SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis		Lec OG15.1 Enumerate and describe the indications and steps, technique and complications of episiotomy , cervical cerclage Obj15.1.1 Enumerate the indications and discuss the steps of episiotomy Obj15.1.2 Discuss the technique and complications of episiotomy Obj15.1.3 Discuss the indications of cervical cerclage Obj15.1.4 Discuss the technique and complications of cervical cerclage		SGL- Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, ,compartment syndrome and open fractures with focus on secondary infection prevention and management.	
03-06-25	TUESDAY	IM10.5 Describe and discuss the aetiology if CRF.		SU30.1 Wound Healing		sgt OG8.2 Elicit document and present an obstetric history including menstrual history , last menstrual period , previous obstetric history, comorbid conditions, past medical history and surgical history Obj8.2.1 -Elicit,document and present obstetric history including menstrual history , last menstrual period, previous obstetrics history Obj8.2.2- Elicit,document and present past medical history and surgical history	

04-06-25	WEDNESDAY	<p>Lec OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labour- Breech presentation</p> <p>Obj14.4.10 Describe and discuss the classification of breech presentation</p> <p>Obj14.4.11 Discuss the diagnosis of breech presentation</p> <p>Obj14.4.12 Discuss the management of labour with Breech presentation</p> <p>OG15.1 Enumerate and describe the indications and steps, technique and complications of assisted breech delivery & external cephalic version</p> <p>Obj15.1.5 Enumerate the indications and discuss the steps of assisted breech delivery</p> <p>Obj15.1.6 5 Enumerate the indications and discuss the technique of external cephalic version</p> <p>Obj15.1.7Discuss the complications of external cephalic version</p>		PS3.7 Enumerate and describe common organic psychiatric disorders, magnitude, etiology and clinical features		IM 2.13 Discuss and enumerate the indications for and findings on echocardiogram, stress testing and coronary angiogram	
05-06-25	THURSDAY	DR7.3 Describe the pharmacology and action of antifungal (systemic and topical) agents. Enumerate side effects of antifungal therapy					
06-06-25	FRIDAY	PE 20.11 - Low birth weight babies (Preterm and SGA)		NPCB		SU4.2 SGD Describe Clinical features, Diagnose type and extent of burns and plan appropriate treatment.	
07-06-25	SATURDAY	Holiday					
08-06-25	SUNDAY	Sunday					
09-06-25	MONDAY	SU30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis		<p>Lec OG16.1 Enumerate and discuss causes, prevention, diagnosis, management of postpartum haemorrhage</p> <p>Obj16.1.1 Enlist the causes of postpartum haemorrhage.</p> <p>Obj16.1.2 Discuss the methods of diagnosis of postpartum haemorrhage</p> <p>Obj16.1.3 Describe the preventive measure of postpartum haemorrhage</p> <p>Obj16.1.4 Discuss the management of postpartum haemorrhage</p>		SDL-3- OBSERVE AND DESCRIBE THE INDICATION FOR AND STEPS INVOLVED IN THE PERFORMANCE OF PURE TONE AUDIOMETRY & IMPEDANCE AND ENNUMERATE THE INDICATION AND THE RESULT OF AN AUDIOGRAM	
10-06-25	TUESDAY	IM10.9 Describe and discuss the pathophysiology of anaemia and hyperparathyroidism in ckd		SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele		<p>Sdl OG8.6- Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy</p> <p>Obj8.6.1- Making of diet chart for normal pregnancy and high risk pregnancy</p>	
11-06-25	WEDNESDAY	<p>Lec OG16.3 Describe and discuss monitoring of foetal well-being, including ultrasound and foetal Doppler</p> <p>Obj16.3.1 Describe and discuss the importance of foetal monitoring</p> <p>Obj16.3.2 Enumerate various methods of foetal monitoring</p> <p>Obj16.3.3 Describe and discuss role of ultrasound in monitoring of foetal well being</p> <p>Obj16.3.4 Describe and discuss role of foetal Doppler in monitoring of foetal well being</p>		PS3.8 Enumerate and describe the essential investigations in patients with organic psychiatric disorders		IM 3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia	
12-06-25	THURSDAY	DR8.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children		IM10.10. Describe and discuss the association between ckd, glycemia and hypertension			
13-06-25	FRIDAY	PE 21.2, PE 21.4- Hematuria and acute PSGN		Orbital tumours classification, clinical features. Retinoblastoma		SU4.3 SGD Discuss the Medicolegal aspects in burn injuries	
14-06-25	SATURDAY	LEC 6 -Anatomy of oesophagus, pathophysiology of diseases of upper oesophagus and their management	SKILL LAB	RD1.4 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy		AS3.3 SDL Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery	

15-06-25	SUNDAY	Sunday					
16-06-25	MONDAY	SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis		Lec OG16.3 Describe and discuss causes , clinical features , diagnosis, investigations , principles of management , prevention and counselling in IUGR Obj16.3.5 Describe and discuss prevention and counselling in IUGR Obj16.3. 6 Describe and discuss the causes and clinical features of IUGR Obj16.3.7 6Describe and discuss investigations and principles of management of IUGR			
17-06-25	TUESDAY	IM10.26 Describe and discuss supportive therapy in CKD including diet,antihypertensives,glycemic therapy,dyslipidemia,anemia,hyperkalemia,hyperphosphatemia and secondary hyperparathyroidism		SU29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system		sgt OG8.4 Describe and demonstrate clinical monitoring of maternal and foetal well being	
18-06-25	WEDNESDAY	Lec OG24.1 Define, classify and discuss AUB , its aetiology, clinical features , investigations , diagnosis and management Obj24.1.1 Describe and discuss the classification of AUB Obj24.1.2 Describe and discuss the aetiology, clinical features of AUB Obj24.1.3Describe and discuss investigations , diagnosis and management of AUB		PS3.10 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders family education in patients with organic psychiatric disorders		IM 4.23 Prescribe drugs for malaria based on the species identified ,prevalence of drug resistance and national programs	
19-06-25	THURSDAY	DR8.7 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for common viral illnesses of the skin		IM10.27 Describe and discuss the indications or renal dialysis			
20-06-25	FRIDAY	PE 26.1 , PE 26.2- Acute and fulminant hepatitis				SU29.7 SGD Gall Bladder malignancy	
21-06-25	SATURDAY	LECTURE-Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection	AETCOM	AS9.3 Describe the principles of fluid therapy in the preoperative period		DR14.4 Identify and distinguish angioedema from other skin lesions	
22-06-25	SUNDAY	SUMMER VACATIONS					
23-06-25	MONDAY						
24-06-25	TUESDAY						
25-06-25	WEDNESDAY						
26-06-25	THURSDAY						
27-06-25	FRIDAY						
28-06-25	SATURDAY						
29-06-25	SUNDAY						
30-06-25	MONDAY						
01-07-25	TUESDAY	Evaluation of various micro as macrovascular complications of diabetes		SU22.4 Describe the clinical features, classification and principles of management of thyroid cancer		"sgt OG8.7 Enumerate the indications for and types of vaccination in pregnancy obj8.7.1- Enumerate the indications of vaccination in pregnancy. obj8.7.2-Enumerate the types of vaccination in pregnancy. obj 8.7.3- Discuss the administration of specific vaccines "	

02-07-25	WEDNESDAY	Lec OG24.1 Define, classify and discuss AUB , its aetiology, clinical features , investigations , diagnosis and management Obj24.1.1 Describe and discuss the classification of AUB Obj24.1.2 Describe and discuss the aetiology, clinical features of AUB Obj24.1.3Describe and discuss investigations , diagnosis and management of AUB		PS4.1 Describe the magnitude and etiology of alcohol and substance use disorders		IM 10.14 Generate a differential diagnosis and prioritise based on clinical feature that suggest a specific etiology	
03-07-25	THURSDAY	DR9 1 Classify describe the epidemiology etiology microbiology pathogenesis, clinical presentations and diagnostic features of discussion Leprosy		IM11.16 Describe and discuss the pharmacologic therapies for diabetes,their indications,contraindications,adverse reactions and interactions			
04-07-25	FRIDAY	PE 26.4 - Portal hypertension in children				SU22.4 SGD Describe the clinical features, classification and principles of management of thyroid cancer	
05-07-25	SATURDAY	LEC 7 -Evaluation of vocal cord palsy, etiopathogenesis and their management	SKILL LAB				
06-07-25	SUNDAY	Sunday					
07-07-25	MONDAY	AN12.13 Describe the anatomical basis of Wrist drop		Lec OG24.1 Define, classify and discuss AUB , its aetiology, clinical features , investigations , diagnosis and management Obj24.1.1 Describe and discuss the classification of AUB Obj24.1.2 Describe and discuss the aetiology, clinical features of AUB Obj24.1.3Describe and discuss investigations , diagnosis and management of AUB		SGL-Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection	
08-07-25	TUESDAY			SU22.6 Describe and discuss the clinical features of hypo and hyperparathyroidism and the principles of their management		sgt OG8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy Obj8.8.1Enumerate the indication of ultrasound in the initial assessment and monitoring in pregnancy Obj8.8.2 Describe the investigations in the initial assessment and monitoring in pregnancy	
09-07-25	WEDNESDAY	Lec .investigation and implications on health and fertility and management of endometriosis and adenomyosis Obj26.1.1 Describe and discuss the aetiopathogenesis& clinical features of endometriosis and adenomyosis and implications on health and fertility. Obj26.1.2 Describe and discuss the investigation and clinical features of endometriosis and adenomyosis Obj26.1.3 Describe and discuss management of endometriosis and adenomyosis		PS4.2 Elicit, describe and document clinical features of alcohol and substance use disorders		IM 10.15 Describe the appropriate diagnostic work up based on the presumed aetiology	
10-07-25	THURSDAY	DR9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions					
11-07-25	FRIDAY	PE 27.5 - Shock in children		SU2.2 Describe the clinical features of shock and its appropriate treatment.		SU29.9 SGD Describe the clinical features, investigations and principles of management of disorders of prostate	
12-07-25	SATURDAY	LEC 8 -Etiopathogenesis , types and management of COM	AETCOM	RD1.5 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine		AS3.4 SGDChoose and interpret appropriate testing for patients undergoing Surgery	
13-07-25	SUNDAY	Sunday					

14-07-25	MONDAY	SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland		Lec investigation and implications on health and fertility and management of endometriosis and adenomyosis Obj26.1.1 Describe and discuss the aetiopathogenesis & clinical features of endometriosis and adenomyosis and implications on health and fertility. Obj26.1.2 Describe and discuss the investigation and clinical features of endometriosis and adenomyosis Obj26.1.3 Describe and discuss management of endometriosis and adenomyosis		SDL-4 ELICIT DOCUMENT AND PRESENT A CORRECT HISTORY AND DEMONSTRATE AND DESCRIBE THE CLINICAL FEATURES, CHOOSE THE CORRECT INVESTIGATIONS AND DESCRIBE THE PRINCIPLES OF MANAGEMENT OF EPISTAXIS	
15-07-25	TUESDAY	IM11.17 Outline a therapeutic approach to therapy of type 2 dm based on presentations, severity and complications in cost effective manner				sgt OG9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic Obj9.1.1 Classify the aetiology of abortions including threatened, incomplete, inevitable, missed and septic Obj9.1.2 Discuss the management of abortions including threatened, incomplete, inevitable, missed and septic	
16-07-25	WEDNESDAY	Lec OG28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis, investigations, principles of management of infertility- methods of tubal patency, ovulation induction, assisted reproductive techniques Obj28.1.1 Describe and discuss the common causes, pathogenesis, clinical features of infertility Obj28.1.2 Describe and discuss the differential diagnosis of infertility Obj28.1.3 Describe and discuss investigations and principles of management of infertility. Obj28.1.4 Describe and discuss the methods of detection of tubal patency, ovulation induction, assisted reproductive techniques		PS4.4 Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy			
17-07-25	THURSDAY	DR9.5 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for various classes of leprosy based on national guidelines		IM11.18 Describe and discuss the pharmacology, indications, adverse reactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease		RD1.13 SGD Describe the components of the PC & PNDDT Act and its medicolegal implications	
18-07-25	FRIDAY	PE 28.18 - Pneumonia and empyema		SU3.2 Observe blood transfusions.		SU23.3 SGD Describe the clinical features, principles of investigation and management of Adrenal tumors	
19-07-25	SATURDAY	LECTURE-Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections (a) Skeletal Tuberculosis.	SKILL LAB	AS9.4 Enumerate blood products and describe the use of blood products in the preoperative period		DR15.4 Enumerate the indications for surgical referral	
20-07-25	SUNDAY	Sunday					
21-07-25	MONDAY			Lec OG28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis, investigations, principles of management of infertility- methods of tubal patency, ovulation induction, assisted reproductive techniques Obj28.1.1 Describe and discuss the common causes, pathogenesis, clinical features of infertility Obj28.1.2 Describe and discuss the differential diagnosis of infertility Obj28.1.3 Describe and discuss investigations and principles of management of infertility. Obj28.1.4 Describe and discuss the methods of detection of tubal patency, ovulation induction, assisted reproductive techniques			

22-07-25	TUESDAY	IM11.23 Describe the precipitating causes , pathophysiology,recognition ,clinical features,diagnosis,stabilization and management of diabetic ketoacidosis				sgt OG9.2 Describe the steps and observe/assist in the performance of an MTP evacuation Obj9.2.1 Enumerate indications of MTP Obj9.2.2 Describe the steps of an MTP evacuation Obj9.2.3 Discuss the MTP act with recent Amendments.	
23-07-25	WEDNESDAY	Lec OG28.2 Enumerate the assessment and restoration of tubal patency Obj28.2.1 Describe and discuss the assessment of tubal patency Obj28.2.2 Describe and discuss the methods for restoration of tubal patency.		PS4.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in alcohol and substance abuse		IM 10.18 Identify the ECG findings in Hyperkalemia	
24-07-25	THURSDAY	DR9.6 Describe the treatment of Leprosy based on the WHO guidelines		IM11.24 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilization and management of Hyperosmolar non ketotic state.			
25-07-25	FRIDAY	PE 29.1, PE 29.2- Approach to anemia , Iron deficiency anemia					
26-07-25	SATURDAY	LECTURE-Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee)	AETCOM	CT1.4 Describe the epidemiology, the predisposing factors and microbial		PS1.4 SDL Describe and demonstrate the importance of confidentiality in patient encounters	
27-07-25	SUNDAY	Sunday					
28-07-25	MONDAY	SU30.1 Describe Burn and its management		Lec OG28.3 Describe the principles of ovulation induction Obj28.3.1 Describe and discuss the principles of ovulation induction Obj28.3.2 Describe and discuss the drugs used for ovulation induction.			
29-07-25	TUESDAY	IM 11.14.3 Describe approach to treatment in a hypoglycemia patient				Sgt OG9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management Obj9.3.1 Discuss the aetiology of acute abdomen in early pregnancy Obj9.3.2 Define the clinical features of acute abdomen in early pregnancy Obj9.3.3 Enumerate the differential diagnosis of acute abdomen in early pregnancy Obj9.3.4 Describe the principles of medical and surgical management of acute abdomen in early pregnancy	
30-07-25	WEDNESDAY	Lec OG28.4 Enumerate the various Assisted Reproductive Techniques Obj28.4.1 Enumerate the various Assisted Reproductive Techniques Obj28.4.2 Discuss the indications and effectiveness of the different techniques of Assisted Reproductive Techniques.		PS4.7 Enumerate the appropriate conditions for specialist referral in patients with alcohol and substance abuse disorders		IM 10.21 Describe and discuss the indications for and insert a peripheral intravenous catheter	
31-07-25	THURSDAY	DR9.7 Enumerate and describe the complications of leprosy and its management, including understanding disability and stigma.		IM14.5 Describe and discuss the natural history of obesity and its complications			
01-08-25	FRIDAY	PE 29.4- Hemolytic anemia		SU24.3 Describe the clinical feature, investigation and management of malignant condition of the pancreas		SU24.3 SGDDDescribe the clinical feature, investigation and management of Carcinoma pancreas	
02-08-25	SATURDAY	LEC 9 -Etiopathology, investigations and management of neck swellings	SKILL LAB				
03-08-25	SUNDAY	Sunday					

04-08-25	MONDAY	SU1.2 Describe the factors that affect the metabolic response to injury		Lec OG29.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations , principles of management, complications of fibroid uterus Obj29.1.1 Describe and discuss the aetiology, pathology, clinical features of fibroid uterus Obj29.1.2 Describe and discuss the differential diagnosis of fibroid uterus Obj29.1.3 Describe and discuss investigations and principles of management of fibroid uterus. Obj29.1.4 Describe and discuss the complications of fibroid uterus.		SGL- Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections {a) Skeletal Tuberculosis affecting major joints (Hip, Knee).	
05-08-25	TUESDAY	IM16.13 Describe and enumerate the indications ,pharmacology and side effects of pharmacology for parasitic causes of diarrhea				sdl OG8.6- Demonstrate ability to maintain required documentation in health care (including correct use of medical records)	
06-08-25	WEDNESDAY	LecOG29.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations , principles of management, complications of fibroid uterus Obj29.1.1 Describe and discuss the aetiology, pathology, clinical features of fibroid uterus Obj29.1.2 Describe and discuss the differential diagnosis of fibroid uterus Obj29.1.3 Describe and discuss investigations and principles of management of fibroid uterus. Obj29.1.4 Describe and discuss the complications of fibroid uterus.		PS5.1 Classify and describe the magnitude and etiology of schizophrenia & other psychotic disorders		IM 11.19 Demonstrate and counsel patients on the correct technique to administer Insulin	
07-08-25	THURSDAY	DR10.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis.		IM16.15 Distinguish based on the clinical presentation of Crohns disease from Ulcerative colitis.			
08-08-25	FRIDAY			SU25.1 Describe applied anatomy and appropriate investigations for benign breast disease			
09-08-25	SATURDAY						
10-08-25	SUNDAY	Sunday					
11-08-25	MONDAY	SU25.1 Describe applied anatomy and appropriate investigations for benign breast disease		Lec OG29.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations , principles of management, complications of fibroid uterus Obj29.1.1 Describe and discuss the aetiology, pathology, clinical features of fibroid uterus Obj29.1.2 Describe and discuss the differential diagnosis of fibroid uterus Obj29.1.3 Describe and discuss investigations and principles of management of fibroid uterus. Obj29.1.4 Describe and discuss the complications of fibroid uterus.		SDL-5 DEMONSTRATE THE CORRECT TECHNIQUE OF EXAMINATION OF NECK INCLUDING ELICITATION OF LARYNGEAL CREPITUS	
12-08-25	TUESDAY	IM17.10 ENUMERTE THE INDICATIONS FOR EMERGENCY CARE ADMISSION AND IMMEDIATE SUPPORTIVE CARE IN PATIENTS WITH HEADACHE				sgt OG12.2 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of anaemia in pregnancy Obj12.2.1 Define anaemia in pregnancy Obj12.2.2 Classify anaemia in pregnancy Obj12.2.3 Describe the pathophysiology of anaemia in pregnancy Obj12.2.4 Discuss the investigations for anaemia in pregnancy Obj12.2.5 Enumerate the adverse effects of anemia in pregnancy on the mother and foetus Obj12.2.6 Describe the management of anemia during pregnancy and labour Obj12.2.7 Enlist the complications of anaemia in pregnancy	

13-08-25	WEDNESDAY	Lec OG30.1 Describe and discuss the aetiopathogenesis, clinical features, differential diagnosis, investigations, management, complications of PCOS Obj30.1.1 Describe and discuss the aetiology, pathology, clinical features of PCOS Obj30.1.2 Describe and discuss the differential diagnosis of PCOS Obj30.1.3 Describe and discuss investigations and principles of management of PCOS. Obj30.1.4 Describe and discuss the complications of PCOS.		PS5.3 Describe the treatment of schizophrenia including behavioural and pharmacologic therapy		IM 11.20 Demonstration to and counsel patients on the correct technique of self monitoring of blood glucose	
14-08-25	THURSDAY	DR10.4 Describe the prevention of congenital syphilis		IM17.11 DESCRIBE THE INDICATIONS PHARMACOLOGY DOSE SIDE EFFECTS OF ABORTIVE THERAPY IN MIGRAINE			
15-08-25	FRIDAY	PE 30.2 - Tubercular Meningitis					
16-08-25	SATURDAY		AETCOM				
17-08-25	SUNDAY	Sunday					
18-08-25	MONDAY	SU25.1 Describe applied anatomy and appropriate investigations for malignant disease of breast		Lec OG30.1 Describe and discuss the aetiopathogenesis, clinical features, differential diagnosis, investigations, management, complications of PCOS Obj30.1.1 Describe and discuss the aetiology, pathology, clinical features of PCOS Obj30.1.2 Describe and discuss the differential diagnosis of PCOS Obj30.1.3 Describe and discuss investigations and principles of management of PCOS. Obj30.1.4 Describe and discuss the complications of PCOS.			
19-08-25	TUESDAY	IM17.13 DESCRIBE THE PHARMACOLOGY DOSE ADVERSE REACTIONS AND REGIMENS OF DRUGS USED IN TREATMENT OF BACTERIAL TUBERCULAR AND VIRAL MENINGITIS		SU25.1 Describe applied anatomy and appropriate investigations for malignant disease of breast		"sdl OG8.6- Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy Obj8.6.1- Discuss various mineral deficiency during pregnancy and their management "	
20-08-25	WEDNESDAY	Lec OG30.1 Describe and discuss the aetiopathogenesis, clinical features, differential diagnosis, investigations, management, complications of PCOS Obj30.1.1 Describe and discuss the aetiology, pathology, clinical features of PCOS Obj30.1.2 Describe and discuss the differential diagnosis of PCOS Obj30.1.3 Describe and discuss investigations and principles of management of PCOS. Obj30.1.4 Describe and discuss the complications of PCOS.		PS5.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in schizophrenia		IM 11.21 Recognise the importance of patients preference while selecting therapy for Diabetes	
21-08-25	THURSDAY	DR10.6 Describe the etiology, diagnostic and clinical features of non-syphilitic sexually transmitted diseases (chancroid, donovanosis and LGV)		IM 18.1. Describe the functional and the vascular anatomy of brain			
22-08-25	FRIDAY	PE 32.1 - PE 32.5 : Down's Syndrome				SU30.5 SGD Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	
23-08-25	SATURDAY	LECTURE- Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like wrist drop, claw hand, palsies of Radial, Ulnar, Median Nerves, foot drop, Lateral Popliteal and Sciatic Nerves.	SKILL LAB	CT1.5 Elicit, document and present an appropriate medical history that		PS10.4 SGD Describe the treatment of somatoform disorders including behavioural, psychosocial and pharmacologic therapy	
24-08-25	SUNDAY	Sunday					
25-08-25	MONDAY	SU25.3 Describe causes and management of Bed Sores		CNS and other manifestations			
26-08-25	TUESDAY	Holiday					

27-08-25	WEDNESDAY	Lec OG31.1 Describe and discuss the etiology, classification, clinical features, investigations , principles of management and preventive aspects of prolapse of uterus Obj31.1.1 Describe and discuss the aetiology, classification, clinical features of prolapse of uterus. Obj31.1.2 Describe and discuss the investigations of prolapse of uterus. Obj31.1.3 Describe and discuss the principles of management and preventive aspects of prolapse of uterus		PS5.6 Enumerate the appropriate conditions for specialist referral in patients with psychotic disorders		IM 12.15 Describe and discuss the indication of thionamide therapy, Radiolodine therapy and surgery in the management of thyrotoxicosis	
28-08-25	THURSDAY			IM 18.12.1 List the various treatment modalities in acute ischemic stroke		CT1.18SDL Educate health care workers on National Program of Tuberculosis and administering and monitoring the DOTS program administration, efficacy and complications of the BCG vaccine	
29-08-25	FRIDAY	PE 33.1- Hypothyroidism in children				SU6.2 SGD Enumerate Prophylactic and therapeutic antibiotics Plan appropriate management	
30-08-25	SATURDAY		AETCOM				
31-08-25	SUNDAY	Sunday					
01-09-25	MONDAY	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases		Lec OG31.1 Describe and discuss the etiology, classification, clinical features, investigations , principles of management and preventive aspects of prolapse of uterus Obj31.1.1 Describe and discuss the aetiology, classification, clinical features of prolapse of uterus. Obj31.1.2 Describe and discuss the investigations of prolapse of uterus. Obj31.1.3 Describe and discuss the principles of management and preventive aspects of prolapse of uterus		SGL- Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like wrist drop, claw hand, palsies of Radial, Ulnar, Median Nerves, foot drop ,Lateral Popliteal and Sciatic Nerves.	
02-09-25	TUESDAY	IM 18.14 Describe the initial management of a hemorrhagic stroke		SU25.3 Describe causes and management of Ulcers		sgt OG12.2 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of anaemia in pregnancy Obj12.2.1 Define anaemia in pregnancy Obj12.2.2 Classify anaemia in pregnancy Obj12.2.3 Describe the pathophysiology of anaemia in pregnancy Obj12.2.4 Discuss the investigations for anaemia in pregnancy Obj12.2.5 Enumerate the adverse effects of anemia in pregnancy on the mother and foetus Obj12.2.6 Describe the management of anemia during pregnancy and labour Obj12.2.7 Enlist the complications of anaemia in pregnancy	
03-09-25	WEDNESDAY	Lec OG31.1 Describe and discuss the etiology, classification, clinical features, investigations , principles of management and preventive aspects of prolapse of uterus Obj31.1.1 Describe and discuss the aetiology, classification, clinical features of prolapse of uterus. Obj31.1.2 Describe and discuss the investigations of prolapse of uterus. Obj31.1.3 Describe and discuss the principles of management and preventive aspects of prolapse of uterus		PS6.1 Classify and describe the magnitude and etiology of depression		IM 13.18 Discuss and describe the ethical and the medico legal issues involved in end of life care	
04-09-25	THURSDAY			IM 18.15 Enumerate the indications for surgery in a hemorrhagic stroke			
05-09-25	FRIDAY	Holiday					

06-09-25	SATURDAY	LEC 10 -Practical application of ENT instruments	SKILL LAB				
07-09-25	SUNDAY	Sunday					
08-09-25	MONDAY	SU11.1 Describe principles of Preoperative assessment		Lec OG33.1 Classify , describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer Obj30.1.1 Describe and discuss the aetiology, pathology, clinical features of cervical cancer. Obj30.1.2 Describe and discuss the differential diagnosis of cervical cancer Obj30.1.3 Describe and discuss investigations of cervical cancer. Obj30.1.4 Describe and discuss the staging of cervical cancer.		SDL-6 - OBSERVE AND DESCRIBE THE INDICATIONS FOR AND STEPS INVOLVED IN TRACHEOSTOMY	
09-09-25	TUESDAY	IM 19.1.1 Describe the functional anatomy of the locomotor system of the brain				Sgt OG12.3 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, criteria,adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of diabetes in pregnancy Obj12.3.1 Define diabetes in pregnancy Obj12.3.2 Classify and describe the aetiology, pathophysiology of diabetes in pregnancy Obj12.3.3 Enlist the investigations and criteria used in diabetes in pregnancy Obj12.3.4 Enumerate the adverse effects on the mother and foetus during diabetes in pregnancy Obj12.3.5Describe the management during pregnancy and labour during diabetes in pregnancy Obj12.3.6 List the complications of diabetes in pregnancy	
10-09-25	WEDNESDAY	Lec OG33.2 Describe the principles of management including surgery and radiotherapy of malignant lesions of the cervix Obj33.2.1 Describe the principles of managementof malignant lesions of the cervix. Obj33.2.2 Describe and discuss the surgery for treatment of malignant lesions of the cervix. Obj33.2.3 Describe and discuss the radiotherapy for treatment of malignant lesions of the cervix.		PS6.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression		IM 14.11 Communicate and counsel patient on behavioural, dietary and lifestyle modification	
11-09-25	THURSDAY			IM19.2.2 To classify the various movement disorder according to distribution.		RD1.12 SDL Describe the effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure	
12-09-25	FRIDAY	PE 33.4 - Diabetes Mellitus in children				SU27.1 SGDDDescribe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease	
13-09-25	SATURDAY		AETCOM	RT1.1 Describe and discuss definition of radiation, mechanism of action of radiation, types of radiation		AS3.5 SGD Determine the readiness for General Surgery in a patient based on the preoperative evaluation	
14-09-25	SUNDAY	Sunday					

15-09-25	MONDAY	SU11.1 Describe principles of Day Care Surgery assessment		Lec OG34.1 Describe and discuss the aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer Obj34.1.1 Describe and discuss the aetiology, pathology, clinical features of endometrial cancer Obj34.1.2 Describe and discuss the differential diagnosis of endometrial cancer Obj34.1.3 Describe and discuss investigations of endometrial cancer Obj34.1.4 Describe and discuss the staging of endometrial cancer Obj34.1.5 Describe and discuss the principles of management of endometrial cancer			
16-09-25	TUESDAY	IM19.8.1 To describe clinical manifestation of Parkinson's Disease.				Sdl OG13.1-Monitoring of labor including partogram Obj13.1.17- Case study for partograph	
17-09-25	WEDNESDAY	Lec OG34.1 Describe and discuss the aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer Obj34.1.1 Describe and discuss the aetiology, pathology, clinical features of endometrial cancer Obj34.1.2 Describe and discuss the differential diagnosis of endometrial cancer Obj34.1.3 Describe and discuss investigations of endometrial cancer Obj34.1.4 Describe and discuss the staging of endometrial cancer Obj34.1.5 Describe and discuss the principles of management of endometrial cancer		PS6.4 Describe the treatment of depression including behavioural and pharmacologic therapy		IM15.8 Generate a differential diagnosis based on presenting symptom and clinical feature	
18-09-25	THURSDAY			Discuss the feature of non parathyroid hormone mediated hypercalcemia			
19-09-25	FRIDAY	PE 34.1 - PE 34.4 : Tuberculosis , NTEP				SU27.2 SDL Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	
20-09-25	SATURDAY	LECTURE-Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joint.	SKILL LAB	AS9.4 Enumerate blood products and describe the use of blood products in the preoperative period			
21-09-25	SUNDAY	Sunday					
22-09-25	MONDAY	SU11.2 Enumerate the principles of general, regional, and local Anaesthesia		Lec OG34.2 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of ovarian cancer Obj34.2.1 Describe and discuss the aetiology, pathology, clinical features of ovarian cancer Obj34.2.2 Describe and discuss the differential diagnosis of ovarian cancer Obj34.2.3 Describe and discuss investigations of ovariancancer Obj34.2.4 Describe and discuss the staging of ovariancancer Obj34.2.5 Describe and discuss the principles of management of ovariancancer			

23-09-25	TUESDAY	IM22.3 Describe the approach to the management of hypercalcemia				Sgt OG12.5: Describe the clinical features , detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of UTI in pregnancy Obj12.5.1 Describe the clinical features of UTI in pregnancy Obj12.5.2 Discuss the effect of pregnancy on UTI Obj12.5.3 Describe the impact of the UTI on pregnancy Obj12.5.4 Discuss the complications and management of UTI in pregnancy	
24-09-25	WEDNESDAY	Lec OG34.2 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of ovarian cancer Obj34.2.1 Describe and discuss the aetiology, pathology, clinical features of ovarian cancer Obj34.2.2 Describe and discuss the differential diagnosis of ovarian cancer Obj34.2.3 Describe and discuss investigations of ovariancancer Obj34.2.4 Describe and discuss the staging of ovariancancer Obj34.2.5 Describe and discuss the principles of management of ovariancancer		PS6.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in depression		IM16.11 Enumerate the indication of stool culture and blood culture in patient in acute diarrhea	
25-09-25	THURSDAY			IM 22.5 Enumerate the causes and describe the clinical features and the correct approach to the diagnosis and management of the patient with hyponatremia		CT1.12 SGD Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing	
26-09-25	FRIDAY	PE 35.1 - Identify, discuss and defend medicolegal ,sociocultural and ehtical issues as they pertain to health care in children (including parental rights and refuse to refuse treatment)					
27-09-25	SATURDAY	LECTURE-Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID)	AETCOM	CT1.7 Perform and interpret a PPD (mantoux) and describe and discuss		PS12.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosomatic disorders	
28-09-25	SUNDAY	Sunday					
29-09-25	MONDAY	SU11.2 Enumerate the principles of blood transfusion		Lec OG34.2 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of ovarian cancer Obj34.2.1 Describe and discuss the aetiology, pathology, clinical features of ovarian cancer Obj34.2.2 Describe and discuss the differential diagnosis of ovarian cancer Obj34.2.3 Describe and discuss investigations of ovariancancer Obj34.2.4 Describe and discuss the staging of ovariancancer Obj34.2.5 Describe and discuss the principles of management of ovariancancer			

30-09-25	TUESDAY	IM22.6 Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hypernatremia				"sgt OG12.2 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of anaemia in pregnancy Obj12.2.1 Define anaemia in pregnancy Obj12.2.2 Classify anaemia in pregnancy Obj12.2.3 Describe the pathophysiology of anaemia in pregnancy Obj12.2.4 Discuss the investigations for anaemia in pregnancy Obj12.2.5 Enumerate the adverse effects of anemia in pregnancy on the mother and foetus Obj12.2.6 Describe the management of anemia during pregnancy and labour Obj12.2.7 Enlist the complications of anaemia in pregnancy	
01-10-25	WEDNESDAY	Holiday					
02-10-25	THURSDAY						
03-10-25	FRIDAY	PE 34.16 - Diphtheria , Pertusis and tetanus				SU28.1 SGD Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	
04-10-25	SATURDAY		SKILL LAB				
05-10-25	SUNDAY	Sunday					
06-10-25	MONDAY	SU19.1 Describe the principles of Graft and Flaps		Lec OG34.2 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of ovarian cancer Obj34.2.1 Describe and discuss the aetiology, pathology, clinical features of ovarian cancer Obj34.2.2 Describe and discuss the differential diagnosis of ovarian cancer Obj34.2.3 Describe and discuss investigations of ovariancancer Obj34.2.4 Describe and discuss the staging of ovariancancer Obj34.2.5 Describe and discuss the principles of management of ovariancancer		SGL- Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joint and degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID.	
07-10-25	TUESDAY	IM 22.8 Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hyperkalemia		SU28.1 Early assessment and management of trauma		" Sgt OG12.3 Define , classify and describe the aetiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of diabetes in pregnancy Obj12.3.1 Define diabetes in pregnancy Obj12.3.2 Classify and describe the aetiology, pathophysiology of diabetes in pregnancy Obj12.3.3 Enlist the investigations and criteria used in diabetes in pregnancy Obj12.3.4 Enumerate the adverse effects on the mother and foetus during diabetes in pregnancy Obj12.3.5 Describe the management during pregnancy and labour during diabetes in pregnancy Obj12.3.6 List the complications of diabetes in pregnancy	

08-10-25	WEDNESDAY	<p>Lec OG34.3 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis , investigations & management of gestational trophoblastic disease</p> <p>Obj34.3.1 Describe and discuss the aetiology, pathology, clinical features of gestational trophoblastic disease</p> <p>Obj34.3.2 Describe and discuss the differential diagnosis of gestational trophoblastic disease</p> <p>Obj34.3.3 Describe and discuss investigations of gestational trophoblastic disease</p> <p>Obj34.3.4 Describe and discuss the staging of gestational trophoblastic disease</p>				<p>IM18.9 Choose and interpret the appropriate diagnostic and imaging test that will delineate the anatomy and underlying cause of the lesion</p>	
09-10-25	THURSDAY			IM22.13 Identify the underlying acid based disorder based on an ABG report and clinical situation			
10-10-25	FRIDAY	PE 30.3 - Hydrocephalus					
11-10-25	SATURDAY		AETCOM	RT1.2 Describe and discuss interaction of radiation with matter & measurement of radiation			
12-10-25	SUNDAY	Sunday					
13-10-25	MONDAY	SU 30.9 Oral Cavity Carcinoma		<p>Lec OG34.3 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis , investigations & management of gestational trophoblastic disease</p> <p>Obj34.3.1 Describe and discuss the aetiology, pathology, clinical features of gestational trophoblastic disease</p> <p>Obj34.3.2 Describe and discuss the differential diagnosis of gestational trophoblastic disease</p> <p>Obj34.3.3 Describe and discuss investigations of gestational trophoblastic disease</p> <p>Obj34.3.4 Describe and discuss the staging of gestational trophoblastic disease</p>		<p>SDL-7 - DESCRIBE THE CARE OF PATIENT WITH A TRACHEOSTOMY</p>	
14-10-25	TUESDAY	IM 22.7 Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hypokalemia				<p>Sgt OG12.7: Describe and discuss screening, risk factors, management of mother and newborn with HIV</p> <p>Obj12.7.1 Describe and discuss screening of mother and newborn with HIV</p> <p>Obj12.7.2 Enlist the risk factors of mother and newborn with HIV</p> <p>Obj12.7.3 Discuss the management of mother and newborn with HIV</p>	
15-10-25	WEDNESDAY	<p>Lec OG34.3 Describe and discuss the aetiology, pathology, classification, staging, clinical features, differential diagnosis , investigations & management of gestational trophoblastic disease</p> <p>Obj34.3.1 Describe and discuss the aetiology, pathology, clinical features of gestational trophoblastic disease</p> <p>Obj34.3.2 Describe and discuss the differential diagnosis of gestational trophoblastic disease</p> <p>Obj34.3.3 Describe and discuss investigations of gestational trophoblastic disease</p> <p>Obj34.3.4 Describe and discuss the staging of gestational trophoblastic disease</p>				<p>M18.10 Choose and interpret the appropriate diagnostic testing in young patients with a cerebrovascular accident (CVA)</p>	
16-10-25	THURSDAY			IM24.1 Describe and discuss the epidemiology, pathogenesis, clinical evaluation, presentation and course of common diseases in the elderly			
17-10-25	FRIDAY	PE 23.1, PE 23.2 - VSD and tetralogy of fallot				SU3.3 SGD Counsel patients and family/ friends for blood transfusion and blood donation.	

18-10-25	SATURDAY	LECTURE-Describe and discuss the aetiopathogenesis, clinical features , investigations, principle of management of benign and malignant tumors and pathological fracture.	SKILL LAB	AS10.3 Describe the role of communication in patient safety			
19-10-25	SUNDAY	DIWALI VACATIONS					
20-10-25	MONDAY						
21-10-25	TUESDAY						
22-10-25	WEDNESDAY						
23-10-25	THURSDAY						
24-10-25	FRIDAY						
25-10-25	SATURDAY						
26-10-25	SUNDAY						
27-10-25	MONDAY	SU18.2Classify skin tumors Differentiate different skin tumors and discuss their management.					
28-10-25	TUESDAY	IM24.3.3 To discuss clinical manifestations in a patient of Acute Confusional state		SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated environmen		Sgt OG13.1 Enumerate and discuss the monitoring of labour including partogram Obj13.1.1 Discuss the role of partogram in monitoring of labour Obj13.2.2 Illustrate drawing a partogram in different clinical settings	
29-10-25	WEDNESDAY					IM19.7 Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorder	
30-10-25	THURSDAY			IM24.3.6 To discuss prognosis and Rehabilitation strategy in a patient of Acute Confusional State			
31-10-25	FRIDAY					SU14.3 SGD Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles)	
01-11-25	SATURDAY		AETCOM				
02-11-25	SUNDAY	Sunday					
03-11-25	MONDAY	SU22.6 Describe the principles of organ transplantation and its complications.				SGL- Describe and discuss the aetiopathogenesis, clinical features , investigations, principle of management of benign and malignant tumors and pathological fracture.	
04-11-25	TUESDAY	IM24.4 Describe and discuss the aetiopathogenesis,clinical presentation,identification, functional changes, acute care, stabilization,management and rehabilitation of vascular events in the elderly.		SU16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery		"Sgt OG12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy Obj12.6.1 Describe the clinical features of liver disease in pregnancy Obj12.6.2 Discuss the effect of pregnancy on Liver Disease Obj12.6.3 Describe the impact of Liver Disease on pregnancy Obj12.6.4 Discuss the complications and management of liver disease in pregnancy "	
05-11-25	WEDNESDAY	Holiday					
06-11-25	THURSDAY			IM24.4.4 Management algorithm and role of rehabilitation of vascular events in the elderly.			
07-11-25	FRIDAY						
08-11-25	SATURDAY		SKILL LAB	RT1.3 Enumerate, describe and discuss classification and staging of cancer (AJCC, FIGO etc.)			
09-11-25	SUNDAY	Sunday					
10-11-25	MONDAY	SU17.1 Describe the Principles of FIRST AID				SDL-8- ENNUMERATE THE INDICATION, CONTRAINDICATION ,OBSERVE AND DESCRIBE THE STEPS OF MYRINGOPLASTY & MYRINGOTOMY	

11-11-25	TUESDAY	IM24.9 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of CVA in the elderly				sgt OG13.2 Enumerate and discuss the principles of induction and acceleration of labour Obj13.2.1 Discuss the principles of induction and acceleration of labour	
12-11-25	WEDNESDAY					IM 6.3 Describe and discuss the relationship between CD4 count and the risk of opportunistic infections	
13-11-25	THURSDAY			IM24.9.5 To discuss management of an elderly patient with CVA			
14-11-25	FRIDAY			SU7.1 Describe the Planning and conduct of Surgical audit		SU6.2 SGD Enumerate Prophylactic and therapeutic antibiotics Plan appropriate management	
15-11-25	SATURDAY	LECTURE-Describe and discuss the clinical features, investigations and principles of management of Congenital and acquired malformations and deformities of: a. limbs and spine - Scoliosis and spinal bifida b. Congenital dislocation of Hip, Torticollis, c. congenital talipes equino varus.	AETCOM	AS10.3 Describe the role of communication in patient safety			
16-11-25	SUNDAY	Sunday					
17-11-25	MONDAY	SU17.2 Demonstrate the steps in Basic Life Support. Transport of injured patient in a simulated environment					
18-11-25	TUESDAY	IM24.10 Describe and Discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of COPD in the elderly				Sgt OG13.3 Enumerate and discuss the conduct of labour, pain relief Obj13.3.1 Discuss the conduct of labour and pain relief in labour. Obj13.3.2 Discuss indications for labour analgesia. Obj13.3.3 Discuss drugs and techniques for labour analgesia.	
19-11-25	WEDNESDAY					IM 9.12 Describe, develop a diagnostic plan to determine the etiology of anemia	
20-11-25	THURSDAY			IM24.10.4 To Discuss acute care and stabilization of an elderly patient with COPD			
21-11-25	FRIDAY					SU3.3 SDL Counsel patients and family/ friends for blood transfusion and blood donation.	
22-11-25	SATURDAY	LECTURE Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's diseases.	SKILL LAB	CT1.8 Generate a differential diagnosis based on the clinical history and			
23-11-25	SUNDAY	Sunday					
24-11-25	MONDAY	Holiday					
25-11-25	TUESDAY	IM24.10.5 To discuss management of an elderly patient with COPD				Sgt OG13.4 Demonstrate and counsel on methods of safe abortion. Obj13.4.1 Discuss counselling methods of safe abortion Obj13.4.2 Discuss the methods of safe abortion.	
26-11-25	WEDNESDAY					IM 4.16 Enumerate the indications and describe the findings in tests of inflammation and specific rheumatologic tests, serologic testing for pathogens including HIV, bone marrow aspiration and biopsy.	
27-11-25	THURSDAY			IM26.1 Enumerate and describe professional qualities and roles of a physician			
28-11-25	FRIDAY			SU17.3 Describe the Principles in management of mass casualties		SU8.2 SDL Demonstrate Professionalism and empathy to the patient undergoing General Surgery	
29-11-25	SATURDAY		AETCOM				
30-11-25	SUNDAY	Sunday					
01-12-25	MONDAY	SU17.4 Describe Pathophysiology, mechanism of head injuries				SGL -Describe and discuss the clinical features, investigations and principles of management of Congenital and acquired malformations and deformities of: a. limbs and spine - Scoliosis and spinal bifida b. Congenital dislocation of Hip, Torticollis, c. congenital talipes equino varus. D. metabolic bone disorders in articular osteoporosis, osteomalacia, rickets, Paget's diseases.	

02-12-25	TUESDAY	IM26.1.2 Discuss comparison of Brain & skill v/s compassion & empathy				Sgt OG14.1: Enumerate and discuss the diameters of maternal pelvis and types Obj14.1.1 discuss the diameters of maternal pelvis	
03-12-25	WEDNESDAY					IM 8.13 Enumerate the indications for and interpret the results of : CBC, Urine routine, BUN, Cr, Electrolytes, Uric acid, ECG	
04-12-25	THURSDAY			IM26.6 Describe and discuss the role of a physician in health care system			
05-12-25	FRIDAY			SU9.3 Communicate the results of surgical investigations and counsel the patient appropriately		SU2.3 SDL Communicate and counsel patients and families about the treatment and prognosis of shock demonstrating empathy and care	
06-12-25	SATURDAY		SKILL LAB				
07-12-25	SUNDAY	Sunday					
08-12-25	MONDAY	SU17.5 Describe clinical features for neurological assessment and GCS in head injuries				SDL-9 - ENNUMERATE THE INDICATION, CONTRAINDICATION , OBSERVE AND DESCRIBE THE STEPS OF MASTOIDECTOMY	
09-12-25	TUESDAY	IM26.6.4 Basic administration of health care				Sgt OG14.2 Discuss the mechanism of normal labour, Define and describe obstructed labour, its clinical features; prevention; and management Obj14.2.1 Discuss the mechanism of normal labour Obj14.2.2 Define and describe obstructed labour Obj14.2.3 Discuss the clinical features of obstructed labour Obj14.2.4 Discuss the prevention of obstructed labour Obj14.2.5 Describe the management of obstructed labour	
10-12-25	WEDNESDAY					IM 14.15 Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle	
11-12-25	THURSDAY			IM6.17.1 Discuss the principles of HAART in PEP		RT4.7 SGD Counsel patients regarding acute and late effects of radiation and supportive care	
12-12-25	FRIDAY			SU10.1 Describe the principles of perioperative management of common surgical procedures		SU9.1 SGD Choose appropriate biochemical, microbiological, pathological, imaging investigations and interpret the investigative data in a surgical patient	
13-12-25	SATURDAY		AETCOM	RT2.1 Describe and discuss radiation protection and personnel monitoring during radiation treatment			
14-12-25	SUNDAY	Sunday					
15-12-25	MONDAY	SU17.6 Chose appropriate investigations and discuss the principles of management of head injuries					
16-12-25	TUESDAY	IM 4.1 Describe and discuss the febrile response and the influence of host immune status, risk factors and comorbidities on the febrile response		SU10.2 Describe the steps and obtain informed consent in a simulated environment		Sgt OG15.1 Enumerate and describe the indications and steps, technique and complications of Caesarean section Obj15.1.1 Enumerate the indications of Caesarean section Obj15.1.2 describe the indications of Caesarean section Obj15.1.3 List the steps of Caesarean section Obj15.1.4 Describe the techniques of Caesarean section Obj15.1.5 Discuss the complication of Caesarean section	
17-12-25	WEDNESDAY	Holiday					
18-12-25	THURSDAY			IM 4.5 Describe and discuss the pathophysiology and manifestations of malignant causes of fever including hematologic and lymph node malignancies			
19-12-25	FRIDAY					SU10.3 SDL Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.	
20-12-25	SATURDAY	LECTURE-Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of a patient with Post Polio Residual Paralysis and cerebral palsy.	SKILL LAB				
21-12-25	SUNDAY	Sunday					
22-12-25	MONDAY	SU17.8 Describe the pathophysiology of chest injuries.					

23-12-25	TUESDAY	IM 1.7 Enumerate, describe and discuss the factors that exacerbate heart failure ischemia, arrhythmias, anaemia, thyrotoxicosis, dietary factors ,drugs etc		SU10.4 Perform basic surgical Skills such as First aid including suturing and minor surgical procedures in simulated environment		Sdl OG10.2- Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management Obj10.2.1- newer modalities of blood and blood products transfusion	
24-12-25	WEDNESDAY					IM 14.9 Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc	
25-12-25	THURSDAY	WINTER VACATIONS					
26-12-25	FRIDAY						
27-12-25	SATURDAY						
28-12-25	SUNDAY						
29-12-25	MONDAY						
30-12-25	TUESDAY						
31-12-25	WEDNESDAY						
01-01-26	THURSDAY						
02-01-26	FRIDAY						
03-01-26	SATURDAY						
04-01-26	SUNDAY	Sunday					
05-01-26	MONDAY	SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system				SGL-describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of with Post Polio Residual Paralysis, cerebral palsy.	
06-01-26	TUESDAY	IM 1.19. Enumerate the indications for and describe the findings of heart failure with the following conditions including: 2D echocardiography, brain natriuretic peptide, exercise testing, nuclear medicine testing and coronary angiogram		SU28.13 Describe the applied anatomy of small and large intestine		sgt. and steps, technique and complications of vacuum extraction & low forceps Obj15.1.1 Enumerate and describe the indications of vacuum extraction & low forceps Obj15.1.2 Enlist the steps of vacuum extraction & low forceps Obj15.1.3 Describe the techniques of vacuum extraction & low forceps Obj15.1.4 Discuss the complications of vacuum extraction & low forceps	
07-01-26	WEDNESDAY					IM 15.8 Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis	
08-01-26	THURSDAY			IM2.19 Discuss & describe the pathogenesis, recognition & management of complications of ACS including arrhythmias, shock, LV dysfunction, papillary muscle rupture & pericarditis		RT4.1 SDL Describe and discuss teletherapy machine (Co60/LINAC)	
09-01-26	FRIDAY					SU28.14 SGD Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	
10-01-26	SATURDAY		AETCOM	RT3.1 Describe and discuss cell cycle and cell survival curve, principles of radiobiology			
11-01-26	SUNDAY	Sunday					
12-01-26	MONDAY	SU28.15Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications				SDL-10 -ENNUMERATE THE INDICATION,OBSERVE AND DESCRIBE THE STEPS OF SEPTOPLASTY	

13-01-26	TUESDAY	IM10.8 Classify, describe and discuss the significance of proteinuria in ckd		SU4.2 Describe Clinical features, Diagnose type and extent of burns and plan appropriate treatment.		sgt OG15.2: Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: episiotomy Obj15.2.1 Enumerate and describe the indications of episiotomy Obj15.2.2 Enlist the steps of episiotomy Obj15.2.3 Describe the techniques of episiotomy Obj15.2.4 Describe the complications of episiotomy OG15.3: Observe and assist in the performance of an episiotomy and demonstrate the correct suturing technique of an episiotomy in a simulated environment	
14-01-26	WEDNESDAY					IM. 16.7 Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis.	
15-01-26	THURSDAY			IM17.12 DESCRIBE THE INDICATIONS PHARMACOLOGY DOSE SIDE EFFECTS OF PROPHYLACTIC THERAPY IN MIGRAINE			
16-01-26	FRIDAY					SU28.18 SGD Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan	
17-01-26	SATURDAY	Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient.	SKILL LAB				
18-01-26	SUNDAY	Sunday					
19-01-26	MONDAY	SU17.7 Describe the clinical features of soft tissue injuries. Chose appropriate investigations and discuss the principles of management.					
20-01-26	TUESDAY	IM 18.15.3 list indication for surgery in hemorrhagic stroke				Sgt OG16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management. Obj16.2.1 Discuss uterine inversion Obj16.2.2 Describe the prevention of uterine inversion Obj16.2.3 Discuss the diagnosis and management of uterine inversion	
21-01-26	WEDNESDAY					IM22.4 Enumerate the components and describe the genetic basis of the multiple endocrine neoplasia syndrome	
22-01-26	THURSDAY			IM19.2.1 To enumerate various movement disorder			
23-01-26	FRIDAY					SU25.5 SDL Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	
24-01-26	SATURDAY	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures	AETCOM	CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers			
25-01-26	SUNDAY	Sunday					
26-01-26	MONDAY	Holiday					
27-01-26	TUESDAY	Holiday		SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis		Sgt OG16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of foetal well-being, including ultrasound and foetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation Obj16.3.1 Describe the causes of intrauterine growth retardation Obj16.3.2 Discuss the diagnosis and investigations, including ultrasound and foetal Doppler, used in intrauterine growth retardation Obj16.3.3 Describe the management of intrauterine growth retardation	

28-01-26	WEDNESDAY				LUNCH	IM24.5 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of depression in the elderly	
29-01-26	THURSDAY			IM 22.7.5 Discuss approach to diagnosis of hypokalemia			
30-01-26	FRIDAY			SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis		SU28.9 SDL Demonstrate the correct technique of examination of a patient with disorders of the stomach	
31-01-26	SATURDAY		SKILL LAB
